	Qty	Unit	Rate	SubTot	To be completed prior to commencement of work & in conjunction with the standard Permit To Work document				
Labour					This document is not a Permit to Work. The contractor is to submit a Risk Assessment and Permit to Work for the work to be carried out to the facility Owner / Manager for approval and signature. If different work types are to be done simultaneously, ensure the works are compatible with each other. The original of the Permit to Work is to be submitted with this Job Card to Engen Maintenance Dept. on completion. All Job Cards are to be closed on the Engen Vendor Extranet by the Contractor.
